▪ Product Description

New type rotary thread take-up ensures uniform thread tensions under low-tension settings. Axis hook acting in concert with compensation has been adopted,

and the hook points to catch thread loop at equivalence to left and right, thereby reducing skip stitching and thread breakage considerably. It's equipped with

mini-lifter-and-presser foot which makes the presser foot up, and then sewing the flexible cloth with nice- looking and soft stitches. Winder is designed in

particular so that the machine can be used with more convenience. 2284N can achieve sewing directly, 2-step zigzag, 4-step zigzag and 11 patterns zigzag with changing cam which increases the production efficiency.
