SINGLE NEEDLE! POST BED!

This machine works with upper roller,lower wheel and needle feeding synchronized, ensuring smooth sewing at all times, even when joining together other

material for overlap sewing.Needle feed ensures constantly supply of thin and thick material. no matter it moves straight forward or makes turns.Also suitable

for sewing spongy materials, no crinkle or transform will occure instead the stitch is very smooth and neat.Low friction between the parts because ball and

needle bearing are used. Easy maitenance and long service life.
